Gallery Rifle and Pistol Monthly report 23th February 2020

The morning was fresh, dry and sunny with a little wind. Fifteen shooters took part with twenty three entries in five categories. It was the first time to use our new 'Yellow Safety Line' on the pistol range and it made the running of the competition more efficient. Thanks to all who took part this morning and thanks also to Mark O'D who stood in as range officer and allowed me to shoot. The format was the GP85 target shot at 25mts with ten rounds fired in each of three details with 300 being the HPS. Honours in the small-bore pistol open sights and red dot went to Cathal C, with Anthony F taking first place in the gallery rifle category, Cathal C in centerfire pistol and Bryan P with another excellent score in the M1 group. Results below. Our next outing will be T&P1 at 25mts, Multi at 15mts and the 25mts rifle target at 10mts. We had this format before and it was a great success, something completely different. A good way to put the marksmanship skills to the test. hoping to see you all on 29th March 2020 with first shots away at 10:30. So get practicing.
